Employment History

Junior Software Developer, High-Tech Systems & Software, Bucharest

OCTOBER 2021 – PRESENT

Building and developing the biggest WMS for A&D Pharma as a junior full stack developer, while using .Net platform, C# as programming language, Angular as framework with NodeJs servers for building the UI, and both T-SQL and PostgreSQL for open source object-relational database system.

This project was developed from scratch to the stage of being released, while I learned how to work with several microservices that are connected between each other and where I managed to gain additional skills.

I have a strong LINQ knowledge and a proven fast capacity of learning new things.
